### ECMC Categorically Condemns Terrorist Attacks in Paris and Elsewhere

Edmonton Council of Muslim Communities (ECMC), an umbrella council reflecting the views of ten diverse organizations serving the Muslim communities in the greater Edmonton area, unequivocally and forcefully condemns the recent attacks on innocent civilians in Beirut, Paris and Baghdad.

The Muslim community in and around Edmonton shares the grief and outrage felt by all Canadians following the attacks in Paris and elsewhere. We join all peace loving Canadians in expressing our deep condolences to the victims and their families in all these attacks.

While ECMC and its members generally focus on events within Canada, we categorically condemn these horrific attacks and all acts of violent extremism and terrorism, wherever and whenever they occur. There can be no justification of any kind for such criminal acts.
